

I am appalled at what is happening to our News Media. Sinclair Broadcasting cannot call the anti-kerry film "News". This is a ridiculous claim that cannot stand. This country is frightening me and is on the verge of becoming something other than a Democracy. The public airwaves is to be used for public good, not public manipulation. The 1st amendment stressed the importance of a free press. Today, we have a "bought" press operating in disguise. God save us all!
